

FLEX CUT

METALFLEX

MetalFlex is a 100% PU film.

Light, very stretchable and with a beautiful metal effect. You will never have to worry anymore about washing a metallic heat transfer film because MetalFlex brings you an excellent 40°C washing fastness.

SUITABLE FOR STANDARD TEXTILES

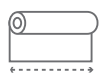

FEATURES:

Heat sealable PU
Thickness (without liner): 50 µ
Fastness: 40 °C

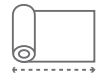

Transfer Temperature: 160-170 °C (320-330 °F)
Transfer Time: 17-15 seconds
Pressure: Medium/High
Tip - Waiting for the product to cool down 20 seconds before removing the liner after pressing will give a shinier finish
